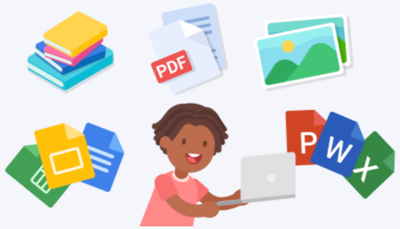
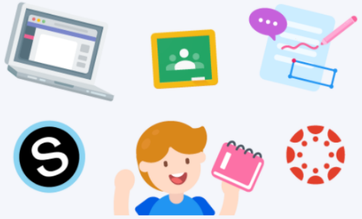
# SO WHAT IS IT?



### Interact with any document

Transform all your static documents, PDFs, images, or other learning resources into an interactive experience ready for expression, analysis, or debate.



### A seamless workflow

Create, send, and grade assignments all from one place. Kami works seamlessly with Google Classroom, Canvas, and Schoology Learning Management Systems too.

### Online or offline, in-class or remote

Whether you're teaching in the class, remotely, or a bit of both, Kami is the tool for you. Kami works online or offline for students without reliable network access.

### Student-centric collaborative learning

Universal learning environment, enabling students to interact with teachers, resources, and each other in their preferred medium – text, freehand, audio, voice-typing, or video.

# WHY Kami?

## Learn

Students enjoy annotating text and editing documents using Kami. Students can annotate on ebooks, publisher-supplied PDFs, worksheets and more.

## Create

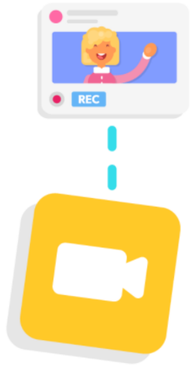
Kami tools boost students' creativity by allowing them to draw freely and annotate with a selection of colors, shapes and text sizes. Students can easily save files with Kami's Google Classroom integration.

## Collaborate

Teachers can markup, discuss and provide feedback using Kami's text, audio, and video annotation tools. These collaborative tools encourage active, real-time participation in the classroom.

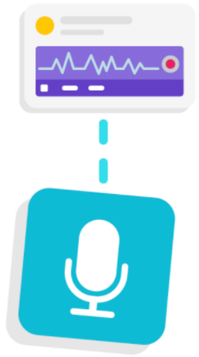
# FEATURES

## Top Kami tools for interactive learning



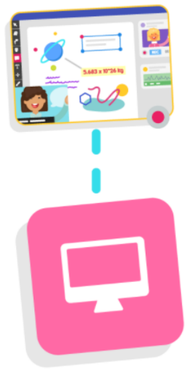
### Video comments

Great for asynchronous instructions and recording explanation videos for students.



### Voice comments

Express ideas, provide instructions, give feedback or answer questions using audio recording.



### Screen capture

An alternative way to demonstrate answers and explanations through screen display recording.

### Text to speech

Students with reading comprehension difficulties can use this tool to exercise reading independently.
