

Critically Conscious Bystander Scale (CCBS) – Past Year Format

For the following questions you will be asked to consider both sexual assault and sexual harassment. For the purposes of this study the term **sexual harassment** will be as a broad concept that includes verbal, visual, and physical acts. This can include any of the following: voyeurism (when someone watches private sexual acts), exhibitionism (when someone exposes themselves in public), unwanted sexual comments, and touching a person without their consent (e.g., grabbing someone's breasts or butt). **Sexual** assault will be used to refer to unwanted sexual touching, forced sex acts, and attempted or completed rape (sexual penetration without consent).

You will now be asked a series of questions related to behaviors you may or may not have done in the past. Please answer the question to the best of your ability using the available answer choices.
